PIPE APPLICATION

190m of 1500mm diameter Weholite 2kN/M² HDPE pipe used as a CSO attenuation tank

Using Weholite to avoid a road closure ...

190 metres of ASSET WEHOLITE HDPE pipe was installed under the A48 trunk road by Select Castle Ltd working for Morrison Construction as part of Welsh Water's AMP3 contract in South-west Wales. With the A48 being so heavily trafficked, Morrisons were looking for a solution that avoided a road closure.

Geraint Williams, Project Manager for Select Castle Ltd, stated that "**due to the lightness of WEHOLITE pipe we were able to easily transport it from the storage yard to the busy A48 without using any special crane or having a road closure. The pipes were very easy to lay and the welded joints were impeccable**".

THE ESSENTIAL SOLUTION FOR PIPE USERS NATIONWIDE
